### **Rent Exotic Cars Network Announces U.S. Largest Luxury Car Rental Directory Website**

The Rent Exotic Cars Network ([www.rentexoticcars.net](http://www.rentexoticcars.net)) is now the largest and most complete listing of luxury and exotic car rental companies found on the Internet. "This website is all about the customer," says Cheryl Lyman, webmaster and president of CS Publications. "We've made it easy for anyone to do 'one stop shopping' for the rental of an exotic car anywhere in America."

Visitors to [www.rentexoticcars.net](http://www.rentexoticcars.net) will find more exotic car rental agencies in the U.S. listed than anywhere else on the internet. The emphasis isn't just on quantity, but quality as well. The rental agencies listed go through a process to ensure that they have an actual physical presence in the city they are listed for, and a review of their inventory to assure they meet the test for the index.

Bill Stevens, a recent user said: "I didn't know where to find an exotic car to rent, but found [www.rentexoticcars.net](http://www.rentexoticcars.net) right away, and then was led to an agency in the Dallas Fort Worth area, [DFWeliteautorental.com](http://DFWeliteautorental.com), where I rented a Ferrari for the weekend. The experience was great, and I am confident I will use the Rent Exotic Cars Network website again as I travel throughout North America."

Visitors to [www.rentexoticcars.net](http://www.rentexoticcars.net) will find a website packed with easy to use features. These include an attractive well designed layout featuring a map of the USA that allows a user to click on any state and see which companies rent luxury cars in that market. The website also includes up to the minute news, including a cutting edge RSS format news feed featuring the New York Times (including the Auto section), [Autobytel.com](http://Autobytel.com), and [Auto Blog Supercars](http://Auto Blog Supercars).

[Rentexoticcars.net](http://Rentexoticcars.net) even includes a blog for visitors who want to share their experiences with the site. Visitors to the website can subscribe to the blog by e-mail, if they so choose. Google searches can be done directly without leaving the site. Customers who have actually used an agency listed on the website are also invited to share a testimonial.

This website is continually growing and adding features," says Lyman. She notes that unlike other websites, listings are free for qualified exotic car rental agencies. Without creating clutter, a small amount of advertising that is relevant and interesting to site users helps keep it all free to consumers and rental agencies.

"Contrary to popular belief, driving a luxury car is not exclusive to the rich," says Cheryl Lyman. "Anyone can indulge themselves. Driving exotic cars is no longer just a fantasy. Customers using [www.rentexoticcars.net](http://www.rentexoticcars.net) can easily find and rent the automobile of their dreams for a day and live like a movie star!"

For more information on the Rent Exotic Cars Network please contact Cheryl Lyman, webmaster and president, CS Publications, phone: 817-764-0419, E-mail: [webmaster@cspublications.com](mailto:webmaster@cspublications.com).
